

Syed Saad Ali Askari

Full-Stack Developer · Next.js · TypeScript · PostgreSQL

Open to Full-Time & Remote Opportunities

+92 322 286 7769 | syedsaadaliaskari@gmail.com | Lahore, Pakistan | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

1 year of self-directed, project-based full-stack development using Next.js, TypeScript, PostgreSQL, and the MERN stack — all projects independently built, deployed, and maintained in production

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in Next.js and TypeScript, with hands-on experience architecting production-grade, multi-tenant SaaS applications from the ground up. Proven ability to implement complex backend systems — tenant isolation, role-based access control, JWT authentication, and relational data modeling with PostgreSQL and Prisma ORM. Writes clean, maintainable code with a strong focus on performance, security, and scalable architecture. All projects independently built, deployed, and maintained on Vercel.

PROJECTS

Housing Society Management System 2026

Stack: [Next.js 16](#) · [TypeScript](#) · [Prisma](#) · [PostgreSQL](#) · [NextAuth v5](#) · [Shadcn/UI](#) · [Recharts](#) · [Live Demo](#) · [GitHub](#)

- Built role-separated portal (Admin / Resident) with real-time search, filter, and instant status updates backed by PostgreSQL
- Automated billing engine with monthly dues generation, overdue alerts, transaction ledger, and downloadable PDF receipts — eliminating manual bookkeeping
- Priority-queued maintenance ticketing with full status lifecycle (Submitted → Assigned → Resolved) via Next.js Server Actions
- App Router + Server Components + direct Prisma queries — zero REST overhead with full relational integrity at the PostgreSQL level

Multi-Tenant SaaS Dashboard 2026

Stack: [Next.js 16](#) · [TypeScript](#) · [Prisma](#) · [PostgreSQL](#) · [NextAuth v5](#) · [Shadcn/UI](#) · [Recharts](#) · [Live Demo](#) · [GitHub](#)

- Row-level tenant isolation — every DB query scoped by tenantId at middleware, making cross-tenant data leakage architecturally impossible
- Dual-provider auth (Google OAuth + credentials) with Bcrypt-hashed passwords and JWT carrying tenantId + role — zero plain-text credentials at any layer
- Granular RBAC via Next.js Middleware on Edge Runtime — route-level authorization under 1ms with zero DB round-trips per request
- Recharts analytics dashboard (area + donut charts) and automated tenant onboarding with cryptographic invite codes

MystryMessage — Anonymous Feedback Platform 2026

Stack: [Next.js](#) · [TypeScript](#) · [NextAuth](#) · [MongoDB](#) · [Mongoose](#) · [Zod](#) · [Bcrypt](#) · [Shadcn/UI](#) · [Live Demo](#) · [GitHub](#)

- Zero-friction anonymous messaging via shareable public URLs — no account creation required, built on Next.js dynamic catch-all routes
- Zod schema validation on all server inputs and Bcrypt hashing on all passwords — no unvalidated data reaches the database
- Optimistic UI for instant message deletion and secure per-user session management via NextAuth.js

TECHNICAL SKILLS

Frontend: Next.js (App Router) · React.js · TypeScript · JavaScript (ES6+) · Tailwind CSS · Shadcn/UI · Framer Motion · Redux Toolkit · TanStack Query · React Hook Form

Backend: Node.js · Express.js · RESTful APIs · Server Actions · Next.js API Routes · Middleware (Edge Runtime)

Databases: PostgreSQL · Prisma ORM · MongoDB · Mongoose · Supabase · Neon DB · Firebase

Auth & Security: NextAuth v5 · JWT · Bcrypt · Zod Validation · RBAC · Row-Level Data Isolation

Tools & Platforms: Git · GitHub · Postman · Vercel · AWS · Stripe · Resend · Docker · CI/CD Pipelines (*in progress*)

EDUCATION

BS Chemistry — The Islamia University Bahawalpur · 2022 – 2026

Independently transitioned into Full-Stack Web Development through intensive project-based learning — every project in this CV was designed, built, deployed, and is maintained solely by me, with no tutorials followed after initial fundamentals.

LEADERSHIP & ACTIVITIES

Class Representative (CR) | *The Islamia University of Bahawalpur*

2024 – 2026 · Bahawalpur, Pakistan

- Elected CR for the BS Chemistry program — served as the primary liaison between students and faculty for 2 years
- Coordinated academic schedules, resolved student concerns, and facilitated class meetings ensuring smooth communication
- Presented structured student feedback to department heads, driving improvements to the academic environment

Group Leader — Chemistry Lab Groups | *The Islamia University of Bahawalpur*

2022 – 2026 · Bahawalpur, Pakistan

- Led lab groups during practical sessions — delegated tasks, enforced safety compliance, and maintained organized workflows
- Reviewed group lab reports before submission, ensuring data accuracy and proper scientific notation

Volunteer Member — Chemistry Students Club | *Islamia University of Bahawalpur*

2022 – 2026 · Bahawalpur, Pakistan

- Organized chemistry seminars, science fairs, and awareness sessions for junior students
- Coordinated club workshops, demonstrations, and inter-departmental events to promote scientific interest among peers

SOFT SKILLS & LANGUAGES

Skills: Problem Solving · System Design Thinking · Self-Directed Learning · Technical Communication · Deadline-Driven Delivery · Leadership & Team Coordination

Languages: Urdu (Native) · English (Professional)
